

 TOYOTA	Technical Service Bulletin	
G-01324T-TME Version 1 2 February 2026	Subject: GTS+ Requirements Update (.NET 4.8.1) Area of Application: Europe excluding Russia Models – Model Codes: All Models	General

Background

- GTS+ requires .NET Framework installed on the PC to run.
- GTS+ versions **2026.01 and above** strictly require **.NET 4.8.1**.
- GTS+ **will not work** without 4.8.1 version.

CAUTION	
There is no counter-measure.	

OS Applicability

.NET 4.8.1 can only be installed on **certain Windows Operating System** (OS) builds.

Please verify your OS Build information **BEFORE** attempting to update GTS+ and .NET.

The table below shows supported OS Build editions.

Source: [.NET Framework system requirements](#)

Operating system	Compatible editions	Preinstalled with the OS	Installable separately	
Windows 11, Update (version 24H2) and newer	64-bit	.NET Framework 4.8.1	--	OK: NO ACTION REQUIRED
Windows 11, Update (version 23H2)	64-bit	.NET Framework 4.8.1	--	
Windows 11, Update (version 22H2)	64-bit	.NET Framework 4.8.1	--	
Windows 11	64-bit	.NET Framework 4.8	.NET Framework 4.8.1	OK: UPDATE REQUIRED
Windows 10 2022 Update (version 22H2)	32-bit and 64-bit	.NET Framework 4.8	.NET Framework 4.8.1	
Windows 10 November 2021 Update (version 21H2)	32-bit and 64-bit	.NET Framework 4.8	.NET Framework 4.8.1	
Windows 10 May 2021 Update (version 21H1)+	32-bit and 64-bit	.NET Framework 4.8	.NET Framework 4.8.1	
Windows 10 October 2020 Update (version 20H2)+	32-bit and 64-bit	.NET Framework 4.8	.NET Framework 4.8.1	
Windows 10 May 2020 Update (version 2004)+	32-bit and 64-bit	.NET Framework 4.8	--	NOT OK: NOT SUPPORTED
Windows 10 November 2019 Update (version 1909)+	32-bit and 64-bit	.NET Framework 4.8	--	
Windows 10 May 2019 Update (version 1903)+	32-bit and 64-bit	.NET Framework 4.8	--	
Windows 10 October 2018 Update (version 1809)+	32-bit and 64-bit	.NET Framework 4.7.2	.NET Framework 4.8	
Windows 10 April 2018 Update (version 1803)+	32-bit and 64-bit	.NET Framework 4.7.2	.NET Framework 4.8	
Windows 10 Fall Creators Update (version 1709)+	32-bit and 64-bit	.NET Framework 4.7.1	.NET Framework 4.7.2	

How to check your OS Edition

Windows 11 OS can always install .NET 4.8.1 update.

For **Windows 10 OS**

1. Right-click on Windows Icon (bottom left of your screen).
2. Click on "System".
3. Scroll down to see OS information.

Manual installation

- Click on the link below; it will start the download:

<https://go.microsoft.com/fwlink/?LinkId=2203304>

- If the link above does not work, go to the link below and click on "**Download .NET Framework 4.8.1 Runtime** →"

<https://dotnet.microsoft.com/en-us/download/dotnet-framework/net481>

- You should see this file ("NDP481-Web.exe") in your Downloads folder:

 NDP481-Web.exe	2026-01-28 10:56	Application	1,433 KB
--	------------------	-------------	----------

- Run the file and follow the wizard.
- If the installation is successful, restart the PC.

GTS+ update procedure

- Perform a clean uninstallation of GTS+
 - Uninstall GTS+ through Windows Apps and Features.
 - After uninstallation is complete, delete "C:\Toyota Diagnostics" folder.
 - Restart PC (required).
- Install .NET 4.8.1
 - Download the installer as explained in previous topic.
 - Run the installer (follow the installation wizard).
 - Restart PC (required).
- Install GTS+
 - Restart PC (required).

Unsupported OS?

If your OS Edition is not supported, replace the unit with an OS that supports the update.
